

CoreMedical Group Growth Ranks Again In US Healthcare Staffing Industry *Second Consecutive Annual Ranking for Company*

Windham, NH (October 9, 2006) **CoreMedical Group** announced the Company's second consecutive placement on the list of the fastest growing staffing companies in the United States. The results were published by *Staffing Industry Report*, a periodical that provides continuous information and analysis on the staffing industry. "We continue to outgrow the industry by a substantial margin," said Armand L. Circharo, Jr., CoreMedical Group's President and Chief Executive Officer, "which makes this distinction exceptionally gratifying. Unlike the Inc. 500 this is a comparison of how we're performing against our peers within our own industry and sector and this confirms our strategy." This year the top companies on the list had average annual growth of over 57% for the period between 2001 and 2005, very robust considering three of those were recession years. "The company's top-line sales grew by 54% in 2005 when the healthcare staffing sector only grew by 7%. No matter how you look at it, we're outpacing our competitors by a wide margin" says Circharo. The Company finished at number 15 overall but was 3rd among healthcare staffing companies.

Again in 2006, the Company achieved placements on *New Hampshire Business Magazine's* Top 100 (#5) also for the second consecutive year, and now *Staffing Industry Report's* 25% Club. So far for 2006 the Company has already reported growth over 2004 in excess of 47% in revenue and 120% in net profit. "This will be our best year ever" said Circharo "Every quarter has been a new high water mark in both revenue and net profit and we don't expect that to slow down anytime soon."

CoreMedical Group provides registered and licensed practical nurses, radiologists, therapists and pharmacists on a travel and permanent basis to hospitals and acute care facilities throughout the United States. The Company operates out of their corporate offices in Windham, NH.
