Core INFORMATION TECHNOLOGY
Where Talent & Technology Meet

CoreMedical Group and CoreInformation Technology now have a one stop shop to represent all lines of service: Welcome2Core.com! We encourage you to share this new landing page link when promoting Core's services, so our clients/potential clients and candidates/potential candidates will know that we offer both medical staffing services and IT staffing services. The landing page Welcome2Core.com offers users the option to visit both coremedicalgroup.com and coreinfotechnology.com, and is much shorter and easier to remember.

The launch of Welcome2Core.com is just phase one of our dual landing page project. Phase two is currently in the works, and will include an about page, charity information, and an introduction to our corporate recruiting staff. If you have any questions about the new page, please feel free to ask.

In the meantime, visit Welcome2Core.com and check it out!
