

For Immediate Release

CoreMedical Group Relocating to New, Larger Location in Manchester, New Hampshire

Manchester, NH – CoreMedical Group, a national healthcare and health information technology staffing company, is moving to a brand new, larger location in Manchester, New Hampshire. The move is the result of the tremendous growth the Company has experienced in recent years.

Over 150 employees will move from the current Salem, NH headquarters to the new location at 3000 Goffs Falls Road in Manchester, New Hampshire this winter. The move will allow the company, named one of the Largest Healthcare Staffing Firms in the country, to continue its steady growth.

“We have always been one of the faster growing companies within our industry, however the continued aging of the US population – now compounded by the effects of the Affordable Care Act – has further fueled our growth. There are now more than 20 million new, insured customers in the healthcare market driving the need for more doctors, nurses, and other healthcare personnel” said Armand L Circharo, Jr, President and CEO of Core.

The new 34,000 square foot, waterfront, campus-style location comes complete with an on-site fitness center and cafeteria, as well as access to Pine Island Pond and its outdoor walking trails. In addition to the new location, CoreMedical Group will be completely overhauling their technology and infrastructure to move to state of the art tools and systems. “We couldn't be more excited about our new facilities and the outlook for our business. It's a very exciting time” Circharo said.

As part of the move, the company will also be combining its two divisions – CoreMedical Group and CoreInformation Technology – into one brand under the CoreMedical Group name. This merger will bring with it a refreshed logo, website, and brand presence.

“Our business is centered within the healthcare market, whether it's our travel nursing, our Locum Tenens services, or our health information technology services. It just made sense for us to rebrand under the single CoreMedical Group name,” said Cassie Viau, Marketing Manager for the Company.

Construction has already begun on the new location, with an expected move planned for December 2016.
