

CoreMedical Group Ranks 8th in US Staffing Industry

Windham, NH (September 27, 2005) **CoreMedical Group** announced the Company's placement on the list of the 26 fastest growing staffing companies in the United States. The results were published by *Staffing Industry Report*, a periodical that provides continuous information and analysis on the staffing industry. "We certainly have had our share of press this year" said Armand L. Circharo, Jr., CoreMedical Group's President and Chief Executive Officer, "but this distinction is very special. This is a comparison of how we're performing against our peers within our own industry and that makes the results very gratifying." According to the report the top ten companies on the list had average annual growth of over 74% for the period between 2000 and 2004, very robust considering three of those years, 2001, 2002 & 2003, were recession years. "Only three healthcare companies made the list at all and only two made the top ten" says Circharo. "No matter how you look at it, we're outpacing our competitors by a wide margin." The Company finished at number eight.

In 2005 the Company has achieved placements on *Inc. Magazine's* Inc. 500 (#491,) *New Hampshire Business Magazine's* Top 100 (#4,) and now *Staffing Industry Report's* 25% Club. So far for 2005 the Company has already reported growth over 2004 in excess of 67% in revenue and 180% in net profit. "This will be our best year ever" said Circharo "Every quarter has been a new high water mark in both revenue and net profit and we don't expect that to slow down anytime soon."

CoreMedical Group provides registered and licensed practical nurses, radiologists, therapists and pharmacists on a travel and permanent basis to hospitals and acute care facilities throughout the United States. The Company operates out of their corporate offices in Windham, NH.
